

MARSHALL REPUBLICAN

Published every Friday and entered at the post-office at Marshall, Mo., as second-class mail matter.

TERMS: \$1.00 PER YEAR IN ADVANCE.

J. J. WITT, Editor and Prop.

Telephone No. 9.
Residence Phone, 575.

Howard county will vote on local option on April 4th. It adjoins Saline on the east.

Lafayette county, outside of Hugginsville and Lexington, will have a local option election on Saturday, April 4th. It is generally predicted that the county will go dry.

The Missouri Pacific-Iron Mountain railway Tuesday laid off 2000 men at their St. Louis shops, making a total of 7600 idle from their force. Whether this retrenchment is a political move or a necessity we are unable to say.

Railroad Magnate Ingalls says "Bryan will sober down if elected." Still, the country has no doubt learned a lesson from the woman who thought her sweet heart would sober up if she married him.—Blackburn Record.

There is no getting around it that the business of the country is suffering severely. This is the usual order of things in presidential election years and has been brought on a little earlier than usual by the flurry. But it need not affect Saline in the least. While the markets may be a little dull, there is enough money here to keep things going in good shape.

Up to Monday, March 8th, 148 of the total of 308 Republican National convention delegates were selected. Out of this 148 116 were instructed for Taft for president, 6 were uninstructed, 26 instructed for other candidates and 18 contested. It will be noticed that so far Taft has 78 per cent of all the delegates selected and it is probable the "people's choice" will get the nomination on the first ballot.

Fire in the public school building of North Collinwood, Ohio, last week caused the death of 161 school children and is one of the worst accidents in this line. The building was a three-story brick one, but it is claimed the doors opened inward and that the rear door was even locked. There was only one fire escape. The accident has caused school boards all over the country to investigate the condition of their buildings.

That Missouri is at least debatable ground politically is conceded by all well informed persons in the state. The record of the present state officials is very popular with the taxpayers of the state and a strong point for a continuation of the good work. In fact Missouri has never had a more capable and energetic set of officials than she has at the present time, and we have no doubt that more than a majority who were deluded into voting for the present governor would change matters now had they the opportunity. Volk is an improvement over many former governors of Missouri, but he is at best only a sham reformer, to expectations.—Warrensburg Standard-Herald.

C. L. REPPENHAGEN'S
REMOVAL SALE!

Having purchased the building from T. T. Piper, three doors south of southwest corner of square, to which I will move shortly, I will offer to the public some great bargains in Harness and Saddlery before moving. I want to reduce my stock, which is full of standard good, and therefore make prices that I know will be attractive and move the goods. The sale will continue through this month only and for cash only.

Weights and Measures.

The inspectors of this Department have, during the past six months, weighed food in hundreds of stores in this state, reporting on blanks provided for the purpose.

FLOUR—It has been found that flour in sacks was often short from 1/4 pound to 4 pound per sack; even where there was an apparent attempt to comply, the gross weight scarcely equalled the required net weight.

The millers of Missouri are reminded that there is a law in this state which requires all sacks or barrels in which flour is sold to be plainly labeled or stamped with the number of pounds of flour contained therein. Section 10578 Revised Statutes 1899, vol. 2, page 2448, reads: "A barrel of flour shall consist of 196 pounds net; a sack of flour shall consist of 98 pounds net; a half a sack of flour shall consist of 48 lbs. net; a quarter sack of flour shall consist of 24 pounds net no manufacturer or dealer in flour shall sell flour in barrels, sacks, half sacks, or quarter sacks containing a less amount of flour than the amounts above specified. Before any barrel, sack, half sack, or quarter sack of flour shall be sold, the number of pounds therein contained shall be plainly labeled or stamped

thereon." The State Pure Food Law on this subject reads: "In the case of foods, as herein defined, an article shall also be deemed to be misbranded; if, in package form, and the contents are stated in terms of weight and measure, they are not plainly and correctly stated on the outside of the package."

A statement quantity is required, (Section 10578, R. S. 1899) This statement must be true—(Section 7, S. B. 47, p. 240, Session Acts 1907.

Flour shipped into this state from another state, which flour does not have on its sack a statement of quantity may be expected to be short. The consumer is advised to watch for the statement of quantity and to purchase from those companies guaranteeing full weight.

A large per cent of foods that are sold in sealed packages fall far short of the quantity commonly supposed to be present but the absence of any statement of quantity renders the manufacturer exempt from prosecution under the Pure Food Law. Again the suggestion, that those companies be patronized that state the quantity of goods on the label, for such statements will usually, or soon be found to be accurate. In the matter of vegetables sold by the grocer—the measured half bushel or peck sold

dom weighs out a half bushel or quarter bushel, although in section 10576, p. 2447, vol. 2 Revised Statutes 1899, is clearly stated what number of pounds shall constitute a bushel of various vegetables and grains.

This department will do all it can to assist the consumers of this state in getting all they pay for, but considerable will still remain for the individual purchaser to look out for.

R. M. Washburn,
State Dairy & Food Com.
Columbia, Mo.

Sedalia Car Shops Closed

Sedalia, Mo., March 3—Notice was posted at the Missouri Pacific shops and at the round-houses in this city today notifying all employees of the shops and laborers of the repair tracks that the shops would remain closed indefinitely; that the pay car would be here Wednesday to pay all in full, and that personal belongings should be removed from the shops before they were finally locked and sealed. A special guard has been sworn in and a fire steamer has been added to the equipment at the shops. All foremen are paid off with full time pay to March 1, and only the deputy constables will be on the grounds after today. Seven hundred men are affected.

Editors Like Prohibition

Macon, Mo., Feb. 29.—When the First District Press association met here the other day Philip Gansz, editor of the Macon Republican, interviewed the editors touching on prohibition. He found them unanimously in favor of it, and those in whose homes the saloons had been banished longest were the most outspoken. They said the saloon patronage never amounted to anything and that the general business conditions were much better without them. They were not annoyed so frequently by their printers "falling by the wayside," and they spent their money on their families, and saved it. One editor said:

"The only thing that can be said of the saloons is they helped out the news columns some, but we are glad to dispense with such items. I'd rather print a story about some farmer's prize hogs than a saloon fight any day."

Not an editor complained of any embarrassment to his town by loss of saloon revenue

Up Against It

An Albany man recently came upon a small boy in a street of that city who was weeping bitterly.

"What's the trouble, my lad?" asked the Albanian, sympathetically.

"Dick Dorgan hit me," blubbered the boy, punctuating his utterances by a series of sobs—"Dick Dorgan hit me, an' pop hit me because I let Dick Dorgan hit me, an' Dick Dorgan hit me agin because I told pop, an' now pop'll hit me agin because Dick Dorgan hit me the second time!"

SIMPLE HOME RECIPE.

Mix This Helpful Recipe at Home and Try it.

Get from any prescription pharmacist the following: Fluid Extract Dandelion, one half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime.

The above is considered by an eminent authority, who writes in a New York daily paper as the finest prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of Urinary difficulties. This mixture acts promptly on the eliminative tissues of the Kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood which causes Rheumatism.

Some persons who suffer with the affections may not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising, the relief being effected without the slightest injury to the stomach or other organs.

Mix some and give it a trial. It certainly comes highly recommended. It is the prescription of an eminent authority, whose entire reputation, it is said was established by it.

A druggist here at home when asked stated that he could either supply the ingredients or mix the prescription for our readers, also recommends it as harmless.

Nervous
Break-Down

Nerve energy is the force that controls the organs of respiration, circulation, digestion and elimination. When you feel weak, nervous, irritable, sick, it is often because you lack nerve energy, and the process of rebuilding and sustaining life is interfered with. Dr. Miles' Nervine has cured thousands of such cases, and will we believe benefit if not entirely cure you. Try it.

"My nervous system gave away completely, and left me on the verge of the grave. I tried skilled physicians but got no permanent relief. I got so bad I had to give up my business. I began taking Dr. Miles' Restorative Nervine. In a few days I was much better, and I continued to improve until entirely cured. I am in business again, and never miss an opportunity to recommend this remedy." Mrs. W. L. BURKE, Myrtle Creek, Oregon.

Your druggist sells Dr. Miles' Nervine, and we authorize him to return price of first bottle (only) if it fails to benefit you.

Miles Medical Co., Elkhart, Ind

Obituary

John Frederick Willming was born Sept. 25, 1892 and entered into the rest beyond, near New Frankfort, Feb. 29, 1908, aged 15 years, 5 months and 4 days.

He had been a sufferer from his infancy, being a victim of that dreadful disease epilepsy, which together with other troubles, caused his death.

He bore his sufferings bravely, ever realizing that the blessing of good health was not his, but never murmured because of his affliction.

During the last seven weeks especially he endured untold pain, yet, with such marvelous patience and submission that one could clearly see that he had access and was drawing from that unseen source, Jesus Christ.

Last September during our revival meeting he gave his heart to God, and also expressed his desire to see others saved. When questioned by his pastor regarding his hope of heaven he said that he felt that he was saved.

Though leaving part of his loved ones here, he has joined the ever increasing number in our heavenly home. Another flower has been transplanted from the church militant into the church triumphant, never again to be chilled by the cold winds of sin but rather to be wafted to and fro by the ethereal breeze of heaven.

Funeral services were conducted by the undersigned, assisted by Rev. Edwin Norvell, of the Baptist church. C. J. Zager.

NOTICE.

Having purchased A. J. Ransberger's Blacksmith shop, located immediately south of Pate Implement Co., we are prepared to do all general blacksmithing and repair work and make a specialty of horse-shoeing. All work guaranteed satisfactory. Give us a trial. Respectfully soliciting your patronage, we are

Yours Respectfully,
